

I do NOT want the FCC to change WI No Call rules. I don't need the calls that interrupt our much need family time which so many families lack these days, or interrupting home work, Or the fact that if I'm grooming a dog I have to put it on and off the grooming table (which is hard on the dog as well as me) to answer stupid phone calls for something I have NO interest in, etc... If I need something I can look it up myself online or pick up a phone book, or go to the store. I don't need someone calling me to sell me something THEY think I need. And how many elderly people are ripped off, or cond into buying something they don't really need by these people when their money would be better spent on their own care and such. LEAVE THE WISCONSIN NO CALL LIST ALONE!!!!
